## **REVISION LOG**

**June 1, 2021 - A - Original Issue of Manual (Edited to B/M 1001263260 Rev H & 1001263330 Rev H)**

**September 1, 2021 - B - Revised Manual (Edited to B/M 1001263260 Rev I & 1001263330 Rev I)**

## **GENERAL INFORMATION**

## **1) MACHINE IDENTIFICATION**

**Machines are identified by model and in some cases a combination of models, serial number (SN) or regional standard (i.e ANSI, CE, CSA). Components may also be identified by SN or manufacturer. common components that may be identified by these characteristics are engines and hydraulic components.**

## **2) PARTS MANUAL ORGANIZATION**

**Product information in this manual is organized under section titles. Frame, Cylinder, Hydraulic and Electrical are a few examples. Each section is organized by figure and page number. The information within the Figure is then organized by item number, part number, description and corresponding illustration (s).**

### **3) TABLE OF CONTENTS**

**A table of contents is found toward the beginning of the manual. Figure number, description and page number are provided for quick reference to the page containing the related information.**

#### **4) RECOMMENDED SPARE PARTS**

**The Recommended Spare Parts, located near the end of the manual, reference most frequently used maintenance parts.**

## **5) PART NUMBER INDEX**

**A numerical index listing all part numbers and the corresponding page number(s) appears at the back of the manual.**

## GENERAL INFORMATION

### 6) NON-SERVICED PARTS

In some instances, it is necessary to display non-serviced parts, assemblies or installations. In the case of assemblies and installations there will be a Ref in the Qty column. In case of parts that are not available for service within assemblies and components, there will be a NSS (Not Sold Separately) or NLA (No Longer Available) listed in the Qty. column of the manual.

### 7) PARTS LIST ITEM NUMBERS

Numbers shown in the item# column correspond to numbers used in the associated illustration (s). Item numbers which are missing from the sequence in the parts list are not used on that page

### 8) INDENTED PARTS DESCRIPTION

An indented part description is included in the item under which it is indented.

### 10) ILLUSTRATION REFERENCE LETTERS

When necessary, illustrations may contain reference letters that are intended to track information (i. e. hoses, harnesses, etc.) from one point to another or to track visual enlargement of components to show details that may be located in another area on the illustration.
